## About This Game

The four Star Pillars that sustain Till's world are in trouble! Mankind decided to harness their power and combine it with their technology and the result has led the Star Pillars to wane their power. Without this power, the world will die along with everyone in it. With it's last ounce of power, the Star Pillars have spread its Star Seeds, portions of their power, to 4 islands and now it's up to Till to seek these seeds and save the pillars.

This is a puzzle platformer where you control Till, a girl who seems to be connected to the pillars, to search out the Star Seeds. She must travel to 4 islands full of obstacles and dangers, figure out how to bypass them, and achieve her goal of collecting all the seeds.

However, she can't do it alone as there will be hurdles that she just won't be able to overcome. She must find and rescue allies who are trapped in cages, each with unique abilities that will aid Till in her quest. Each island will contain it's own dangers and problem solving puzzles that will require the teamwork of all your newly found friends.
